

## Company Fact Sheet

DairiConcepts, L.P., is a leading U.S. provider of innovative, dairy-based ingredients for the global food industry, producing cheese and dairy powders and concentrates, seasonings, flavor enhancers and hard Italian cheeses. DairiConcepts serves icon-brand food companies, foodservice providers, restaurant chains, and industrial ingredient and private label food manufacturers.

By utilizing the industry-specific knowledge and experience of its product developers, process engineers and quality assurance technicians, DairiConcepts specializes in the customized formulation and manufacture of flavor solutions for the proprietary needs of its customers. The company also provides contract manufacturing services requiring a high level of technical, quality and food safety expertise.

Founded in 2000 as a partnership of national and world-leading dairy cooperatives, Dairy Farmers of America, Inc. and Fonterra Cooperative Group, Ltd., DairiConcepts today has nine manufacturing plants located throughout the United States, as well as a development laboratory and pilot testing plant at its corporate location in Springfield, Missouri. Major facilities are certified for organic, kosher and halal production. In recent years, DairiConcepts has expanded its business internationally to include ingredient markets in Latin America, Mexico, Europe and Asia, with further expansion targeted for the Middle East.

The mission of DairiConcepts is to become the number one supplier of ingredient solutions in select market categories by delivering consistently high quality products and services through a culture of integrity, innovation and flawless execution. The company's ongoing growth objective is to expand both organically and through acquisitions of companies that fit its business model.
